Apple:

- Final Cut Pro
- Logic Pro
- Keynote

Other:

- Wordpress
- Joomla
- MAMP / WAMP
- Google Analytics

Professional Experience

Front-End Developer (Nov 2022 - Oct 2025)

Beeks Financial Cloud Group Plc, Renfrew, Scotland

Technologies: Angular, Typescript, NX, NgRx, RxJS, D3.js, Jest, NgMocks, Jasmine, Storybook, Playwright, Keycloak, Docker, Bitbucket, Jira, Microsoft Copilot, Anthropic Claude

- Worked as part of an internal development team on a network / server infrastructure self-service portal build with Angular and Python/Django.
- Developed chart components displaying server usage analytics with D3.
- Updated legacy code and upgraded frontend code dependencies.

Senior Developer (Aug 2020 - Jun 2022)

Idox Group (acquired thinkWhere in Oct 2021), Glasgow, Scotland

Technologies: Angular, Typescript, RxJS, OpenLayers, Python, Flask, Bootstrap, Cypress, AWS, pgAdmin, Docker, Terraform, IIS, Figma, AdobeXD, Balsamiq, Git, Jira

- Worked as part of an agile development team with a focus on design and UI development of groundMapper, a fully-featured cloud service GIS data application.
- Wireframes, UI design and front-end development of advanced search functionality, split-screen map / data views and bespoke forestry data management features.
- Development and delivery of new admin features for groundMapper including permissions and account, project and user management.
- UI design and front-end development of Eurogeographics Open Maps for Europe website, a resource for official European map, geospatial and land information.

UI Developer (Aug 2018 - Feb 2020)

VisitScotland, Edinburgh, Scotland

Technologies: HTML5, CSS3, SASS, VueJS, JavaScript / ES6, MapboxGL, Webpack, Gulp, Cypress, VSCode, BloomReach Experience CMS, Freemarker, Bitbucket, Jira

- Worked as part of an internal development team tasked with a major re-platforming project for VisitScotland's flagship website, www.visitscotland.com.
- Created proof of concept interactive tourism destination maps focussed on accessibility and with rich features including filtering and sorting destination product and event data on name, product type, rating, price and date.
- Worked with UX, Design and Software Engineering teams to create complex itinerary CMS templates integrating destination product data and itinerary maps.

Front-End Developer (Aug 2017 - May 2018)

Peninsula Business Services, Glasgow, Scotland

Technologies: HTML5, CSS3, LESS, AngularJS, JavaScript / ES6, Node, Gulp, Git, Karma, Jasmine, VSCode, Jenkins, WebAPIs, Microsoft Team Foundation Server

- HTML, CSS/LESS and JavaScript development for an internal task management system built as a single page web application using AngularJS.
- Liaised with development team to research and implement Postcode Anywhere API service in a client address search and entry feature.
- Refactored project CSS/LESS directory structure and added automated CSS code linting to the project, making the project files easier to maintain.

Front-End Developer (Feb 2014 - May 2017)

Arnold Clark, Glasgow, Scotland

Technologies: HTML5, CSS3, SASS, JavaScript, JQuery, Node, Git, Backbone, Jekyll, Joomla, Jasmine

- As part of an agile web development team, I worked on the client-side HTML, CSS/SASS and JavaScript development for Arnold Clark's rental and leasing websites, which included:
 - <https://www.arnoldclarkrental.com>
 - <https://www.autocentre.acvm.com>
 - <https://www.acvm.com>
- Liaised with Worldpay technical support team and back-end developer to upgrade legacy online payment system on <https://www.arnoldclarkrental.com> to Worldpay's Hosted Payment Pages. The new system was responsive on tablet and mobile devices by default and contributed to a 21% increase in mobile revenue

Web Content Officer (Oct 2012 - Nov 2013)

The University of Glasgow, Glasgow, Scotland

Technologies: T4 content management system, HTML, CSS, PHP, MySQL, WAMP, HeidiSQL, jQuery, Javascript, AJAX, Photoshop, Illustrator, InDesign

- Web design, web development and support for a wide range of academic and services staff using the T4 web content management system [CMS] within the University of Glasgow.
- Developed a searchable pop-up video gallery in CSS and jQuery
- Developed reusable magazine and responsive e-mail content templates within the university content management system
- Developed a customised PHP/MySQL database and web-based editor to store research and academic unit urls, cross references and associations
- Created training notes and support resources for the t4 content management system

Web Developer / Research Assistant (Oct 2011 - Nov 2012)

The University of Glasgow, Glasgow, Scotland

Technologies: Django web application framework, PHP, MySQL, HTML, CSS, jQuery, AJAX, Photoshop, Illustrator, InDesign, Excel, LaTeX, OmniGraffle.

- Website design and development, project coordination, user evaluation studies, presentations, academic technical writing and online demonstration video production.
- Developed a customised PHP/mysql web content editor for the University of Glasgow School of Maths & Statistics and School of Computing Science
- Designed a child-friendly search engine interface for patients at the Emma Children's Hospital (Emma Kinderziekenhuis) in Amsterdam, NL.
- Designed three different search interfaces and conducted an information retrieval user study to evaluate the cost and effort users expend while querying.

Graphic Designer (Feb 2008 - Sep 2010)

Admit One, New York, NY

Technologies: Photoshop, InDesign, Illustrator, Dreamweaver, Fireworks, Flash, Acrobat, PowerPoint, Word, Excel, Microsoft Visual Studio, HTML, CSS, JQuery, JavaScript.

- Print design, web design and maintenance, e-mail campaigns, Flash banners, illustration, prepress of advertising materials, static and interactive venue maps, trade show booths, large format displays, brochures, promotional t-shirts and other apparel, PowerPoint presentations, corporate identity materials and signage for live event ticket exchange broker. Responsible for project management and direct relations with outside vendors.
- Designed a 6 meter by 6 meter trade show booth floor display
- Created an e-mail campaign template, researched and secured an e-mail marketing vendor, and maintained a weekly e-mail campaign and e-mail list of over 20,000 recipients
- Designed a large glass panel display for the corporate entrance foyer

Graphic Designer (Nov 2002 - Nov 2007)

Henry M. Jackson Foundation for the Advancement of Military Medicine, Bethesda, MD

Technologies: Photoshop, InDesign, Illustrator, Dreamweaver, GoLive, Fireworks, Flash, PowerPoint, Word, Excel, HTML, CSS, JavaScript

- Print design, web design and maintenance, prepress of annual reports, business proposals, brochures, large format displays, scientific posters, trade show booths, specialty materials such as coins, apparel, pens and flags, logos and stationery systems. Project management, direct relations with outside vendors and clients in the U.S. military, oversight and direction of summer design interns.
- Designed the corporate annual reports for 2004 and 2006

- Designed the capabilities brochure for the United States Naval Medical Research Center
- Created a recruitment ad for the United States Naval Medical Research Center featured in Nature Magazine
- Re-designed and maintained the company website and several external client websites
- Designed numerous large format trade show booths and other large format displays, including a 10 meter wide, multi-panel mounted display showcasing patents at the Uniformed Services University of the Health Sciences

Previous Experience
